LONDON LETTERS.

Anxiety Regarding General Wolseley's Plan of Action in Egypt—Gladstone's Administration.—Good Harvest in England.

(Special Despatch to the Oregonian.)

NEW YORK, Aug. 20.—*Tribune's* London cable: There is no definite news from Gen. Wolseley. Arabi's position is immensely strong both naturally and artificially, and it must be turned. Army men are not without fear that Wolseley is in too great haste to double up Arabi before Indian troops can co-operate. It may be a political necessity. A successful blow may prevent Turkish intervention of any kind. If Wolseley's first stroke fails it will only excite Arabi's army and provoke a great Mahommedan rising. His unexpected early action is perhaps caused by danger of the rising of the Nile, which would jeopardize the turning movement from Aboukir to Rosetta. The Turkish ruler is less willing to sign the military convention with England. The sultan perhaps thinks complete abstention is better than co-operation.

Some excitement was caused by the announcement of the Prince of Wales' departure for the continent. The London season is most trying to anyone taking pleasure according to the West End fashion, and as a leader of fashion the prince goes through an enormous amount of work, miscalled pleasure. Even his constitution requires rest; therefore he has gone abroad for a change of scene and air, possibly to drink waters.

The *World's* London cable says parliament adjourned last evening until October 24th, a course of action entirely without precedent since 1853, (?) in which year there was an adjournment from August 2d to October 27th, to allow the Irish parliament time to consider the proposed commercial resolutions. It is by no means unlikely that the fashion of autumnal sessions of a month or six weeks' duration, to begin about November 1st, will be adopted in the future, enabling the legislators to leave London about the middle of July. Although Gladstone has described the session which has just terminated as one of ruin and discomfiture, there can be no doubt that it leaves the liberal party more secure in their enjoyment of power than it has been for months past, thanks to the impudence with which Gladstone has pirated the spirited foreign policy of Beaconsfield, so fiercely attacked and abused by the liberals when in opposition, though it must always be remembered that Gladstone during the Midlothian campaign threw an anchor to windward by laying down very much the same plan of operations in Egypt that has been followed in the present difficulty.

By the irony of fate the converting of Cyprus into a military depot and employment of Indian troops, the expense of the latter being put upon the Indian government, in the face of all the salient points of the "Jingo" programme, by denouncing which the liberals came into power and have secured to the present government the confidence of the country, which they will retain so long as they show themselves determined to maintain the dignity of the nation at home and abroad.

Cetewayo is the lion of the hour, though the powers that be at the colonial office only allow him to roar very mildly. He is much pleased with the conditions of his partial restoration to his kingdom, a British resident being appointed at his capital as a political drynurse. He leaves England in about three weeks from now. The general opinion of those who knew anything about the subject seems to be that when Cetewayo is at home he will do his utmost to make things pleasant for Chief John Dunn, who has been taking on a good deal in his absence.

All eyes are now turned toward Egypt, from which, however, no news of a decisive character is to be expected just yet. There is much speculation as to Sir Garnet Wolseley's plans, which the general keeps profoundly secret. In professional circles here the troops that have been re-embarked at Alexandria are believed to be destined for Ismalia, by way of Port Said, and it is surmised that unless there should be good reason for believing that a direct blow to Arabi would end in his being deserted by his forces, no general movement will be made until the arrival of the Indian contingent at Suez, when, simultaneously with an attack on the front of Arabi's lines near Alexandria, an advance will be made from Ismalia and Suez in the direction of Cairo, with the object of cutting off his line of retreat and occupying Cairo, so as to prevent that city from sharing the fate of Alexandria.

It is difficult to imagine how Arabi Bey's army is to be able to stand against a strong, well disciplined and perfectly equipped force such as we have sent out to Egypt.

The affair is generally regarded here as a military promenade, always supposing that no external complications arise. Now and then a faint remembrance of Isandlana shakes this quiet complacency, but then if Arabi makes no successful stand our troubles will begin when the European concert begins to consider what the future government shall be. There are rumors to-day that Arabi has been proposing terms, and there are sanguine souls who think it not impossible he may surrender without firing a shot.

Harvesting is still continuing in fine if rather dull weather. All the crops are realizing the expectations that have been formed of them recently and are above an ordinary average, with the exception of the wheat crop, and even that is above the average of the last fifteen years. The yield of hay is one of the heaviest ever known. So with the vigorous foreign policy and decent harvest Mr. Gladstone's administration seems to be in luck all round.

Eastern States.

MOUNT PULASKI, Ill., Aug. 21.—Chas. McMahon, who lived five miles east of this city, and who has been missing the past three days, was discovered yesterday with two young men who have been working for him; all three were blindfolded and their throats cut from ear to ear. No cause is known.

ST. PAUL, Aug. 19.—The annual meeting of the St. Paul, Minneapolis and Manitoba Railroad Company was held to-day. The report shows a surplus revenue of $985,000 for the past fiscal year. The directors recommend that in future dividends on stocks be paid quarterly. The following were elected directors for the ensuing year, George Stephen, Donald A. Smith, Jas. J. Hill, R. D. Angus, John H. Kennedy, D. Willis, Jas. and R. B. Galusha.

NORTH ADAMS, Mass. Aug. 20.—At a picnic yesterday Sullivan and Joe Goss began a sparring exhibition, which was disturbed on the second round by a row among spectators. This became so serious the exhibition was stopped, and after the grove had been cleared the mill was continued, and finished in a hall this evening. Sullivan in the first round evidently had the advantage. Up to the third round not much was done, but in the fourth Goss struck Sullivan in the left eye, nearly closing it. In the fifth round Sullivan punished Goss badly, the latter being nearly exhausted. This closed the performance. No betting on the fight, which was considered exceptional.

RICHMOND SPRINGS, N. Y., Aug.—The chief of police and an officer was shot this evening while trying to arrest burglars from Coopertown.

CAIRO, Ill., Aug. 20.—Caup's circus left here this morning in two sections. When about fifty miles north of this city the engine of the second section ran into a passenger coach on the rear of the first train, completely demolishing the coach, killing three drivers and wounding about 25 or 30 others.

Eastern Canada Mail.

(Per steamer North Pacific.)

HALIFAX, Aug. 21.—The nominations have been fixed for the 22nd and polling for the 29th inst in Lunenburg, Yarmouth, and Cape Breton, N. S., the sitting members for which have accepted departmental offices in the new Local Liberal Cabinet. The nomination and polling in Antigonish, vacated by the appointment of Mr. John L. D. Thompson to a judgeship, will take place on the same dates.

WINNIPEG, Aug. 7.—G. B. Spencer's superannuation as Collector of Customs at this port dates from July 1, and his retiring allowance has been fixed on a basis of $2,600 per annum salary. Ten years has been added to his term of service, making it amount to in all thirty-two years.

TORONTO, Aug. 8.—It was last night decided that the Quebec Premier would run for Jacques Cartier. The only other candidates at present in the field are three Liberal-Conservatives, who will probably retire.

A DEFICIT of eighteen thousand dollars has been discovered in the accounts of the city of London (Ont.) for 1874. This is the first fruits of the re-audit recently ordered by the civic authorities.

South America.

BUENOS AYRES, July 24.—Advices from Chili state that several skirmishes occurred between the Chilian and Peruvian detachments in all of which the former were victorious, except in one instance, where seventy-five Chilians were attacked by 2,000 Peruvians, and refusing to surrender were annihilated.

Biliousness.

A furred tongue, bad taste in the mouth, nausea vomiting, variable appetite, alternate diarrhœa and costiveness, faintness, weariness, yellow cast of eyes and countenance, indicates serious biliary trouble. Jaundice is a dangerous disease, it is an overflow of bad bile in the circulation, any of these symptoms should be remedied without delay, and Burdock Blood Bitters is the remedy upon which you may surely rely. (13)

The firm of J. & S. McEachen, Douglas, writes us June 1st. saying "There is not another preparation we can recommend with so much confidence as Burdock Blood Bitters, as it invariably gives the best of satisfaction." Burdock Blood Bitters cures all diseases of Blood, Liver and Kidneys. (16)

Mr. R. W. Carmichael, Chemist and Druggist of Belleville, under date of May, 31st 1882, Writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction. (4)

The Wild Strawberry plant possesses rare virtue as a cleansing, cooling, astringent, anteseptic, and healing medicine, and when combined with other valuable vegetable extracts, as in Dr. Fowler's Extract of Wild Strawberry, it is an unfailing remedy in all Bowel complaints. (14)

A LARGE assortment of A 1 Envelopes just received and for sale at *The Colonist* Stationery Store.

All sensible people, suffering with rheumatism, use Pfunder's Oregon Blood Purifier.

As a remedy for Sea Sickness, for any irritation of the stomach and bowels, for canker of the stomach and mouth, for piles and hemorrnage, and for all varieties of bowel complaints, Dr. Fowler's Wild Strawberry is nature's true specific. (17)

IT NEVER FAILS.

If all other remedies have failed to afford relief there is one that will never disappoint you, and that one is Syrup of Figs. The strong and the weak alike find it powerful for good; harmless, yet thorough, always giving strength to the bowels, so that regular habits may be formed and the system restored to a healths condition. Each bottle contains from twenty to thirty average doses, and the dollar and a quarter bottles more than double. For sale by Langley & Co., Druggist, Victoria. 6

Blank Book Manufactory and Book Bindery.

THAT latest force or fluid, which permeates all matter, and which bears the conventional name of Electricity, is widely appreciated and recognized as a means of cure in various diseases. Its effects in the form of Dr. Thomas' Eclectric Oil are shown by the relief of pain, both Neuralgiac and Rheumatic, as well as the throat and lungs, and in various other healing ways. 55

Louise Michel, the famous French Socialist, exists in a constant whirl of activity. She is now organizing strikes in the South of France, and travels hundreds of miles weekly, lecturing three times a day all along the route. At 11 a. m. she talks about the universality of human brotherhood; at 1 p. m. she speaks something else, giving practicable instructions to strikers; and at 9 p. m. she lectures in a third tow of universal revolution; and so on for seven days in the week.

JACOB H. BLOOMER, of Virgille, N. Y., writes:—"Dr. Thomas' Eclectric Oil cured a badly swelled neck and sore throat on my son in forty-eight hours; one application also removed the pain from a sore toe; my wife's foot was also much inflamed—so much so that she could not walk about the house; she applied the Oil and in twenty-four hours was entirely cured. 54

Davy & Clark, Druggists, Renfrew, writes us June 3rd. "We have sold Fowler's Extract of Wild Strawberry for a number of years, and find nothing equal to it, for the purpose for which it is designed." Dr. Fowler's Extract of Wild Strawberry cures all forms of Bowel complaints incident to Summer and Fall. (15)

W. H. Crooker, Druggist, of Waterdown, under date of June 1st. writes that "Dr. Fowler's Extract of Wild Strawberry cannot be surpassed, when all other remedies fail then it comes to the rescue, and I find the sales large and increasing." Wild Strawberry positively cures all Bowel complaints. (18)

MINISTERIAL CHANGES.

Mr. Armstrong's acceptance of office is briefly adverted to elsewhere. The retirement of Mr. Humphreys was rendered necessary by his defeat in Victoria district and his failure to secure another constituency. In spite of urgent appeals and liberal promises from James Bay; in spite of the oft-repeated declaration of the organ that the popularity of the government was so great that a member would be elected in any district on the mainland, no constituency has been found that would accept Mr. Humphreys as a gift. As for Mr. Armstrong, a weaker man could not have been selected. He resembles a kite without a tail. There is no one behind him. He brings the government no strength, and the Opposition are well rid of a man who will support any policy so long as it secures him a portfolio.

Progress of the C. P. R. in British Columbia.

AT THE FRONT, C. P. R., August 12, 1882.

TO THE EDITOR—Since the various railroad enterprises of the American continent keep constantly before the public eye their remarkable progress by means of special or occasional correspondence, it occurred to me that the Canadian Pacific, in consideration of its importance and by reason of its peculiar relations to the northwest coast, should be frequently and favorably noticed by the press of British Columbia. Occupying, as it does, a prominent place among the great projects of the age, its success should be a source of honest pride to every citizen of the province, and the strongest bond of union between the old homes in the east and the new empire of the west. I shall not burden your columns with statistics, but with your permission will record the result of a few days' observation along the line.

THE FIRST IMPRESSION

one receives is that peculiar difficulties beset the work, especially along the banks of the Fraser, and that unusual obstacles have been met and surmounted during the present year. Unprecedented floods have carried away bridges and destroyed roads, rendering communications with the upper divisions almost impracticable. Material and provisions have been forwarded for much of the time on pack trains, which were often compelled to seek the old Cariboo trail among the mountains or pick their way over the rocky steeps in advance of the grade. Indeed, the only means of transportation that can as yet be employed are Chinese and mules until the wagon road is repaired. Amid

ALL THESE DISCOURAGEMENTS

the officers of every grade have worked with commendable energy and success, and I may be pardoned for indulging in a smile at the statements published of progress on the Northern Pacific, when the prince of superintendents, with all the appliances of steam derricks, horses, carts and rock men, with a train of cars at his back and employing 1400 white laborers and 3900 Chinese, excavated during the month of June 58,748 cubic yards of rock, 107,372 yards of earth and made 173,865 yards of embankment. I have been permitted to use

THE ITEMS OF WORK

done on a section of the Canadian Pacific during the month of July, and offer them here, not in the way of invidious comparison, but merely to convince our friends over the border that energy and enterprise are found in other lands. Without a horse or a cart or steam, 1031 Chinese and 40 white foremen, using only picks, shovels, drills and wheelbarrows, excavated 88,149 yards of earth, 10,081 yards of loose rock and 16,462 yards of solid rock, and made a proportionate amount of embankment. These men landed in Victoria three months before and had to be taught how to hold a shovel and strike a drill, some of them ascending cliffs 200 feet high with the aid of ropes to reach their work, clinging to the rocks like veterans with the foaming river beneath ready to engulf the unwary.

THE CHARACTER OF THE COUNTRY

traversed by the line between Yale and Lytton will be readily understood from the fact that fourteen tunnels are encountered in twenty-four miles of the distance. Of these the longest is 1600 ft. and the last is nearly completed. Several rivers have to be crossed; the Na-aht-latch or Salmon river by a Howe truss bridge of three spans, one 150 feet and two of 100 feet each, supported upon piers of solid masonry 90 feet high. The Fraser below Lytton will be spanned by a magnificent iron structure, perhaps the finest on the Pacific coast.

The year 1883 will see the iron steed coursing through these mountains, another proof that the latent energies of the nations are employed in subduing the earth instead of destroying each other in in cruel wars. Here an army of 7000 men have attacked the everlasting hills, and the reverberations of their cannonade are heard along a line of fifty miles. Rocky battlements are crumbling into dust and the fastnesses of the mountains are taken by storm. Literally, a highway is being cast up for the prince of peace.

Great praise is due the managers and engineers who have thus far prosecuted most successfully this great enterprise, and who will turn over to the constituted authorities a magnificent specimen of engineering and construction.

(Before Hon. A. F. Pemberton.)

TUESDAY, August 22.

Johnny, a Fort Rupert, and Jack, a Yale Indian, were each fined 5s. for being drunk and disorderly.

THE THISTLE BY-LAW.

Ld. Lowenberg was charged with allowing thistles to grow on lot No. 1, belonging to James Anderson, situated on Store street, he being the agent for the same.

Mr. Lowenberg stated that in previous years he had had an arrangement with the city council by which they were to cut down the thistles on this property, and this year he was asked and consented to contribute the same amount as last year, and he thought it strange that the corporation should waste his time by bringing him into court under the circumstances. There were seven cases against him.

Superintendent O'Connor said the notices had been issued on the 27th ult., and no action taken till the 12th of this month.

Mr. Harris, city surveyor, said he had been instructed by the mayor to ask defendant if he would pay the same as last year and he consented, but the corporation found there were too many thistles to cut, and then they issued a public notice.

The whole of the cases were then adjourned till Monday next, with the understanding that Mr. Lowenberg should make application to the council concerning the matter.

A similar charge was brought against Mr. Leneveu with regard to lot 182, west side of Store street.

The defendant stated the lot in question was leased from the government by Anderson & Co.

Mr. Harris stated that the lot in question was a peculiar shape and had been in dispute.

Mr. Leneveu said there was another case against him as to lot 482, which he did not own.

The matter was adjourned for a week.

Charles Bossi, on a similar charge, as agent of Mrs. Vignolo, as to part of lot 182, said he never was agent for that property, but only acted as a friend. Case adjourned till Monday.

MALICIOUSLY KILLING A HOUND.

Charles Goor was charged with having on the 13th inst. maliciously killed a deerhound at Belmont, kept for a lawful purpose, the property of Dr. William Jackson, of Victoria.

Mr. T. Davie appeared for the defence.

Dr. Jackson, being sworn, stated that on the 13th August he was on Metchosin plains hunting, and went with his dog on to the beach at a point between Goor's house and Albert Head, the dog then being in perfect health. After waiting an hour and a half he was joined by Frederick Norris, and they went in company a short distance along the beach, after which the dog was missed. Shortly after Mr. Norris pointed out the dog lying at the point of death. The witness afterwards opened the dog and removed the stomach, and gave it to Mr. Shotbolt for analysis, except a portion which he examined himself, when he found strychnine in it. Goor had previously frequently threatened to kill his dog.

To Mr. Davie—Goor had complained about the dog running some sheep into the water, but this was not true.

William Bickford, sworn, said he had a conversation with Mr. Goor respecting Mr. Jackson's hound, when he said, "I will kill those hounds running mine sheep.' He told Goor to let him or the doctor know if the dog did any damage, and not kill him. He heard Goor complain of one sheep killed and saw the carcass. Never saw Dr. Jackson's hound running sheep, and did not think he could be induced to worry them.

Frederick Norris, sworn, stated he was in company with Dr. Jackson on the 13th, when the dog was killed. Mr. Goor told him once he had laid poison, and after the death of the dog he met him in the bush and told him he had poisoned the dog, and he made reply, "You and the doctor have shot my cat." The cat was lying in the road without a hair turned, and probably died of poison like the dog. Previous to this he told witness he had laid poison and the dog would get it. Never saw the dog attempt to chase sheep when among them.

Mr. John Moore, druggist, Yates street, deposed that on April 24th he was present when some strychnine was sold to Mr. Goor, who stated it was for poisoning panthers.

Mr. Shotbolt deposed as to finding traces of strychnine in the stomach of the dog.

This closed the case for the prosecution.

Mr. Davie said he presumed the information had been laid under the 47th section of the act which premised malicious injury to property, but the facts in this case negatived any unlawful or malicious motive. Dr. Jackson kept a hound for hunting deer, which in itself was legal, but whether it was legal to run deer within a few miles of the town might become questionable in the future. Admitting this was legal, the next question was whether, even if defendant placed the poison, he did it maliciously. The poison was bought on the 24th April, a date when hunting was not legal, and it remains till the 10th August. This view of the case negatived any unlawful attempt on the part of the defendant, as Dr. Jackson could have had no hounds in that locality when the poison was laid. This section was, moreover, directed against men wantonly destroying the property of others, and not with the view of protecting themselves, and was different from that relating to the maiming of cattle. He then read the English case of Daniels against Janes, showing that placing poisoned flesh in an inclosed garden was not an indictable offence. It was difficult to distinguish between the two cases. The accused complains about his sheep and said he had placed poison, and Dr. Jackson's dog comes along and eats it. In the present case there were panthers in the locality which destroyed sheep, as well as dogs.

His Honor declined to have the defendant called as a witness, and said there were some points in the case Mr. Davie had read he would like to look at, he would therefore adjourn the case for three days.

FROM THE FROZEN SEA.

The Eira's Crew Found and Rescued.

LONDON, Aug. 20.—The steamer Hope, commanded by Sir Allen Young, C. B., which left here in June last in search of the crew of the steamer Eira, has arrived at Peterhead with the entire crew of that vessel. The Hope picked them up in Matolschkin Straits, Nova Zembla, on the 3d of August, they having lost their ship off Franz Josef Land, and journeyed in boats to the straits through the ice. Leigh Smith, commander of the Eira expedition, gives the following account of its experience: On July 13, 1881, we steamed through pack ice and ten days later sighted Franz Josef Land. We proceeded towards Cape Ludlow, which was close to the pack and northward. August 2d we went up Nightingale Sound, and thence to Eira harbor and erected a storehouse. On the 16th we started east to look for the Jeannette, but were unable to pass Vincent Hook. On August 21st the Eira got nipped between a land floe and pack ice a mile east of Cape Flava, and sank before we were able to save many stores. We built a hut on Cape Flava of turf and stones and covered it with sails. We wintered there, and during the whole time no signs of scurvy appeared. Twenty-nine walrus and 36 bears were killed and eaten. We left Cape Flava June 21, 1882, in four boats, and sailed 80 miles without seeing any ice, and reached Nova Zembla August 3d. When the Eira was nipped the leak gained so rapidly that in two hours after it was discovered it was necessary to abandon the ship. Hardly had the last man left the vessel when the ice eased and the Eira rapidly sank. A tent was first erected on the ice, and the house was subsequently built.

"TURN ABOUT AND WHEEL ABOUT AND JUMP JIM CROW."

MR. ARMSTRONG OF NEW WESTMINSTER CITY ENTERS THE GOVERNMENT.

The Resignation of the Hon. T. B. Humphreys.

Yesterday Mr. Humphreys, in obedience to the demand of the premier, placed his resignation in the hands of the Governor. In the afternoon, Mr. Armstrong, opposition member elect for New Westminster city; who passed the best part of the last session in abusing the government; who was elected to oppose the Beaven administration, and who since the election, sent a letter of congratulation to Mr. Smithe, leader of the Opposition, was sworn in as provincial secretary and minister of mines. The announcement will take few by surprise. It was always understood that Mr Armstrong was prepared to accept anything at the hands of any government. If the Opposition had succeeded to power the letter to Mr. Smithe shows that he would have been just as ready to enter the new government as he has been to enter the old. The fact is Mr. Armstrong wanted office, and he has got it; but at a fearful sacrifice of principle. As to his following it will be found that it is of a very attenuated description indeed. We much doubt if even one member will be found at his coat-tails when the house meets and in any case the Opposition are well rid of a chronic office-seeker whose presence in the ranks would be a source of trouble and weakness. It is further announced that the government are about to appoint a fourth minister and that that prize will be kept dangling over several heads at once.

The Missing Dispatch.

Following is the copy of the missing dispatch which, after having been nearly a month on the way, reached us on Monday evening:

"KAMLOOPS, July 24.—Ballot-boxes will be opened Saturday. All the candidates except McGirr are Opposition."

Is This True?

It was reported late last evening that Mr. Armstrong, the new minister, less than ten days ago wrote to the lieutenant-governor that he had "no confidence in the Beaven ministry." If this astonishing statement is true New Westminster will know how to deal with her faithless representative.

CHINESE ALLOWED TO LAND.—A Washington dispatch says: "Acting Secretary of the Treasury French yesterday received a telegram from the collector of the port of Port Townsend, W. T., stating that the steamship Elder had arrived there from San Francisco with 32 Chinese as passengers, having touched at Victoria, B. C., on her way. The collector asked for instructions as to whether the Chinese in question had a right to land under the present law. The acting secretary telegraphs him that the Chinese could land, as they had not come from a foreign port, but only from San Francisco, on an American vessel bound for an American port; and the fact that she had touched at a British port on her way did not destroy the right of Chinese passengers to land."

FOR THE NORTH.—Steamship Sardonyx will sail for Skeena and way ports on Tuesday evening next. Her next sailing day for San Francisco will be the 7th proximo.

MR. M. MUIR is progressing very favorably. It was feared for several hours after the accident that his kidneys were injured; but all apprehension in this respect is now dissipated. Under favorable circumstances he will recover in a few days.

THE condition of Mrs. Forbes Vernon was more favorable last evening. She had been resting quietly for nearly 24 hours, and the danger of another relapse is consequently diminishing.

What Some People Say.

That, Mark and Look at A. B. Gray & Co's. new goods.

That where is A. B. Gray & Co's. new advertisement? Look.

That the post office has no flag staffs. How will the loyal employés be able to spread bunting?

That the Zulu king's domestic habits as reported in the newspapers are scarcely worth imitating. He has a huge appetite and devours great quantities of meat, with beef for his choice, washed down by raw whisky. He prefers fingers to forks and the wooly head of the prime minister provides him with the modern refinement of the napkin.

That who is P. J. Walls, who started out to correct *The Colonist* and ended by spelling his own name wrong?

That Mr. Armstrong, before entering the ministry, purchased a reversible overcoat and turned it when he was sworn in.

That there are letters extant from the new minister in which he congratulated Opposition members upon their return and pledged himself to stand by them in the house. If this statement be true let the letters be produced.

That in contradiction of the organ's statement Mr. Humphreys did not secure a mainland constituency.

That Mr. Armstrong claims he has induced the government to change the dry-dock policy. This is another instance, then, of the tail wagging the animal.

That the Princess Louise after her arrival here will visit Bishop Sillitoe of New Westminster who was formerly chaplain to the late Princess Alice.

That Mr. W. Haynes has composed a march in honor of the expected guests which will be published by Messrs. Bagnall.

That an "At Home" will be given at government house on Friday.

The Royal Visit.

Messrs. Smith & Clark, with a posse of workmen, will proceed to Esquimalt this morning for the purpose of fitting up the main cabin of H. M. S. Comus for the reception of the Governor-General and Princess Louise. They have been busy for several days preparing material, and a week probably will be occupied in getting the work done. The large cabin is to be divided into apartments for the accommodation of the Royal party; one side for the ladies belonging to the suite and the other for the Marquis and Princess. As soon as these apartments are finished the ship will proceed to San Francisco to await the arrival of the distinguished party. After the Governor-General's departure for the east the ship will be restored to her original condition.

Washington Territory.

The Seattle *Herald* says that the body of Charles Emerson, a lonely settler on San Juan Island, torn into fragments by hogs, was found on the floor of his cabin. He had apparently been dead for some days and the surroundings indicated that he died by his own hand. A gun lay beside the body discharged and with a long string tied to the trigger in such a manner as to lead to the conclusion that the weapon had been used for the deadly purpose of self-destruction.

AN OBLIGING CRIMINAL.

To Oblige a Reporter He Consents to a Speedy Execution.

A story of a reporter who, in order to have an account of an execution in the afternoon paper which employed him, asked the sheriff to hang the condemned man an hour earlier than the time set, has been going the rounds lately in one form and another. The *Dramatic Times* vouches for the truth of the incident, and gives what it declares to be the true version. The reporter was Mr. Kenward Philp, then engaged on the Brooklyn *Eagle*. He was sent to "do" the hanging of a man at Plainfield, N. J., and found the execution was not to take place till midday, which would not give him time to get back to Brooklyn to do it justice. He went to the sheriff and told him that the failure to hang the man at 10, as announced, would knock him out of $6 at least, and asked him to put the ceremony at 11 o'clock, so that he could get the 11:30 train back. To Mr. Philp's surprise the sheriff was very indignant, but finally promised that if Philp could persuade the condemned man to be hanged an hour sooner he would only be too glad to get the disagreeable job off his hands. Mr. Philp went to the cell and told him plainly what he came for. They had a drink together. The unfortunate man found Philp a very agreeable companion, and said that so far as he was concerned it didn't much matter whether he was hanged an hour sooner or later. Philp then wrote a note to the sheriff embodying the request, the condemned man signed it, and he was hanged at 11. It was subsequently ascertained, however, that the condemned man could not read writing, and the painful doubt was expressed whether he knew what he was signing. But Philp caught his train.

CAUTION.

We beg to call the attention of the trade and the public to the well known quality and elegance of finish of our Gold Cases, guaranteed by us to be of eighteen karat Gold, U. S. Mint assay or of fourteen karat Gold, as may be stamped, and also to our mode of selling the same, charging only for the ACTUAL WEIGHT of the gold used, and not for the base metal comprised in springs, key pipes, filling of crown, etc. To illustrate which a tag accompanies each one of our Gold Cases, which plainly indicates not only the gross weight of the case, but also the NET weight of the gold.

In explanation of the above we desire to say that the old plan of charging for the gross weight of the case, as if it were all gold, worked well enough as long as the manufacturers were content with the amount of brass and steel actually required in its construction; but when the business was degraded into a contest as to who should get the most base metal into the least quantity of gold and call it a GOLD case, then the time came when, in the interest of dealers in American Watches, it became necessary to adopt a plan of selling, showing the buyer exactly how much GOLD each case contained.

To avoid imposition, purchasers of Waltham Watches will observe that every genuine watch, whether gold or silver, bears our trade mark on both case and movement. Gold cases are stamped "A. W. Co.," and guarantee certificates accompany them. Silver cases are stamped "A. M. Watch Co., Waltham, Mass., sterling silver," and are accompanied by guarantee certificates, signed R. E. Robbins, treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective of either distinguishing marks. This caution is rendered necessary by reason of the fact that our cases are frequently separated from our movements, and put upon worthless movements of other makers and vice versa, thus affecting injuriously the performance of the watches, and vitiating our guarantee, which is intended to cover only our complete watches wholly made by us. It is necessary also, because it is so notorious as to be a public scandal that there is great fraud in the metal quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays that many gold and silver cases offered in the market are debased from 10 to 20 per cent. from the quality they assume to be. This is a fraud upon the purchaser, and accounts for the low price at which such cased watches have been sold.—AMERICAN WATCH COMPANY, Waltham, Mass. dw

PEESSING ONWARD.

The British Troops Marching On.

TURKEY REFUSES TO HELP--PORT SAID OCCUPIED.

CONSTANTINOPLE, Aug. 21.—Said Pasha has abandoned the idea of reconvening the Conference. He promised Lord Dufferin that he would strongly urge the Sultan to accept the conditions of the recent military conference. The British declare indispensable one proposal, which is that Turkey shall not undertake any operations in Egypt without assent of the British commanders.

ALEXANDRIA, Aug 21.—Arabi Pasha is constructing extensive earthworks in the direction of Aboukir.

PORT SAID, Aug. 21.—All the Arab laborers have fled, and ships traversing the Suez Canal must be coaled by their own crews.

LONDON, Aug. 21.—Admiral Hewitt telegraphed from Suez at four o'clock this morning as follows: "Yesterday, Captain Hastings, in command of the seamen and marines of the gunboats Sea Gull and Mosquito, assisted by two hundred Highlanders under Major Kelsey, proceeded to Shalief by way of the Maritime Canal, and found six hundred of the enemy strongly entrenched at Begin station. The English force landed and defeated them, taking 45 prisoners, a small cannon and a quantity of ammunition and stores. Our loss was two Highlanders drowned, and two seamen wounded. The enemy's loss was about 100 killed and wounded. The bank of the fresh water canal is cut by the enemy, but it has been repaired now. A brigade reconnoitered in force at the same time, and in the same direction. The transport ship Meriton Hall with the Seventh Bengal infantry, has arrived at Suez. The French troop ship Shamrock entered the Canal this morning. Hanefi Effendi, Arabi Pasha's Director General of Railways, has been arrested for communicating with Arabi Pasha; others will be arrested on the same charge. A battalion of a Shropshire regiment to-day marched to Ramleh and reported Arabi Pasha will concentrate at Danenhaus, and has entrenched his camp at Tantah, where he will establish his headquarters.

PARIS, Aug. 21.—The Government has sent DeLesseps word to use more prudence in his protest.

Chambers closed to-day with impressive ceremony.

PORT SAID, Aug. 21.—The last transport has entered Suez Canal. Vessels are steaming slowly for Ismailia.

ALEXANDRIA, Aug. 21.—The transports Greece, Ludgate Hill and City of New York sailed east to-day.

ISMAILIA, Aug. 21.—Nefick was occupied without opposition. The enemy fled.

TRALEE, August 21.—A farmer named Leahy was shot dead near Killarney last evening by a party of moonlighters.

LIVERPOOL, Aug. 21. Arrived, on the 20th, the bark Golden Gate, from San Francisco.

CONSTANTINOPLE, Aug. 21.—The Porte refuses to permit the exportation from Turkey of mules for the British service in Egypt. Lord Dufferin states this is a contravention of the treaty rights, and addressed a strong protest to the Porte stating that Turkey will be held responsible for heavy damages.

PARIS, Aug. 21.—Edmund Alexander Morin, the painter and designer, is dead.

ST. PETERSBURG, Aug. 21.—Admiral Frederick Delatka, a celebrated Russian navigator, is dead.

CONSTANTINOPLE, Aug. 20.—Said Pasha, Minister of Foreign Affairs, has sent to Turkish Representatives abroad a strongly worded denial of the report of anti-Christian disturbances in Syria. He attributes the reports of the existence of germs of disorder to malevolence. The arrival of foreign men-of-war at Sarnia, he says, is exactly what is calculated to provoke massacres. Many inhabitants apprised the Porte of apprehensions caused by the arrival of two vessels.

PORT SAID, Aug. 21.—The transport Caledonia is aground in the canal; but it does not stop traffic.

SUEZ, Aug. 21.—Gen. McPherson, commander of the Indian contingent, and his staff, arrived here this morning. Highlanders carried the entrenchments at the point of their bayonets.

LONDON, Aug. 21.—The *Mark Lane Express*, in its review of the grain trade, says, there have been a few native samples of wheat in the market. The markets will therefore be cheaper, and wheat increasing, by the difficulty to sell foreign products. Wheat has been dull and lifeless at a deduction of one shilling, and two shillings necessary to effect sales. Off coast business was almost nothing. Twenty-nine cargoes of wheat have arrived. Two were sold and eighteen were withdrawn. The floating stock shows an increase of 67,500 quarters. Maize was cheaper. Sales of English wheat during the past week was 8,899 quarters at 5 shillings and 5 pence, against 12,924 quarters at 8 shillings and 10d during a corresponding period last year.

DUBLIN, Aug. 21.—The corporation of Dublin has passed a resolution of sympathy with Gray. The resolution describes Gray's imprisonment as shameful and oppressive, and expresses the opinion that proceedings for contempt should be regulated by statute. The conservative members of the corporation were absent from the meeting which passed the resolution.

LONDON, Aug. 21.—A deputation of Irish members of Parliament will be sent to America by the Dublin Mansion House Committee for the relief and protection of evicted tenants to secure assistance. A conference Celtic Convention will be held to consider the best means of assisting the movement.

MALTA, Aug. 21.—The transport boats Prussian, Tecas and Bolivar, with troops have arrived on their way to Egypt.

ALEXANDRIA, Aug. 21.—The hospital ship Carthage, and the transports Duke of Argyle, Ludgate Hill, Greece, and Lusitiana have arrived.

ALEXANDRIA, Aug. 21.—Gen. Wolseley telegraphs that there was a slight skirmish at Ismalia. The enemy is moving on trains to Kafr El Dwar, probably intending to withdraw his troops thence.

LONDON, Aug. 21.—The *Times* in leading articles on the voyage of Leigh Smith states that at certain times of the year and under certain conditions of the wind Franz Josef Land is pretty easily accessible. The rescued party report that during the winter at Cape Flora snow drifted to such a height that it completely buried their hut. Notwithstanding this the thermometer inside the hut was for a considerable time at zero, while outside spirits of wine were frozen in the bulb at 45.9 below. The Hope would have effected the rescue of Eira's crew sooner had she not during July struck a sunken reef while sailing along the coast off Nova Zembla, where she remained over twenty-four hours, leaking heavily. Her keel and rudder post were damaged, and repairs had to be made before she proceeded.

PORT SAID, Aug. 21.—Fifty of the captured Egyptian soldiers will be conducted to Alexandria. The native quarter of Port Said is almost entirely deserted. Capt. Fairfax has been appointed commandant of the town. French, Russian and Dutch dispatch boats are arriving. The transport Catalonia has been refloated.

It is rumored that DeLesseps is seriously ill.

Fohmy has been arrested in native quarters.

Some Indian troops have arrived at Tinsad.

BERLIN, Aug. 21.—The German gunboat Cyclops will be dispatched to the Mediterranean on Saturday.

LONDON, Aug. 19.—The Eastern Telegraph Company announce that Port Said was occupied at 3 o'clock this morning by English forces, and at 2:30 this afternoon earthworks had been thrown up between the European and Arab portions of the town.

Seventeen transports and five men of-war are at Port Said, and Admiral Seymour and General Wolseley are both there.

This morning Ismaila was occupied by the British and the rebel troops driven from Nefick. The British have possession of the telegraph line from Port Said to Suez.

PORT SAID, Aug. 20.—The occupying force numbers 6000. Two hundred and fifty two Egyptian soldiers were disarmed without resistance. The government of the khedive has been reinstated. The commander and Egyptian troops are prisoners in the offices of the canal company. The telegraph offices are occupied by the British. The canal has been closed to merchant vessels and the dredgers in it have been seized. The bombardment of the Ghemileh fortifications will probably take place to-day. The French dispatch boat Aspic left yesterday to take the place of the corvette Forbin at Suez. The Forbin has gone to Massouah to protect French subjects. The British man-of-war Tourmaline entered the canal this morning with the gunboat Dee, and cleared for action.

ISMAILA, Aug. 20.—De Lesseps wrote to Rear Admiral Hewitt as follows: "It is said British troops will land on the banks of the Suez canal. I appeal to your honor as a British admiral, that vessels to which, according to the by-laws of the company, we cannot refuse pilots, are being employed for purposes in violation of the neutrality of the canal, which has been secured by the sultan's firman and the recent declaration of the maritime powers."

De Lesseps in another letter says: "The British admiral has informed the chief transit agent of the canal company that in consequence of his instructions from the British government he will prohibit entry into the canal until further orders of all vessels, even the canal company's boats; and in case of need he will resort to force to prevent such entrance. The admiral has further placed gunboats at the entrances of the canal. I protest against this act of violation and spoliation."

CONSTANTINOPLE, Aug. 20.—It is said Assym Pasha has prepared a draft for a convention embodying mutual concessions by England and Turkey. The new project will be submitted to Lord Granville and afterwards to the sultan for ratification. It is thought probable the conference will meet again Monday. The Italian representative has obtained the signatures of the ambassadors to the protocol relating to international protection of the Suez canal. Lord Dufferin, in signing, reiterated his previous reservation as to the *force majeure* clause, which provides for non-interference by the international police with military operations. A committee of naval officers of all states concerned will meet at Port Said to superintend measures necessary for the protection of the canal.

A special cabinet council was held yesterday, at which Assym Pasha was present. It was understood the porte was willing to modify his draft for a military convention by the addition of the following three clauses: First an English general shall be attached to the Turkish camp to facilitate communications between Turkish and British forces; second, maneuvres of British and Turkish forces shall mutually be carried out in such manner as to avoid interference of one with the other; third, a date shall be fixed for evacuation of Egypt by the British forces.

It is believed the English will also submit to certain modifications in the draft for the convention, and an understanding between the two governments is therefore regarded probable.

A telegram has been received from the Arab Sheik Abdallah announcing his arrival in Kurdestauf.

The sultan is understood to be more adverse than ever to the issuance of a proclamation against Arabi Pasha and acceptance of the proposal for a military convention. The fanatical party are for the moment entirely in the ascendant. The growing sympathy of the people here with Arabi Pasha is daily causing the palace increased anxiety. Several arrests have already been made of persons too strongly outspoken in support of Arabi. Inflammatory religious utterances have been prevalent in mosques, notoriously in St. Sophia during Lamazan, or the Mahommedan Lent, which is now being observed.

ALEXANDRIA, Aug. 19.—The khedive has decided to entrust Cheriff Pasha with the presidency of the new ministry; but the ministry will not be constituted until the arrival of Riaz Pasha. Information from headquarters states that a prominent person has been discovered to be in constant communication with the rebels. He will be arrested and confined on board a Turkish man-of-war. It is reported the person referred to is Hissman Pasha.

LONDON, Aug. 20.—A dispatch from Constantinople says: Lord Dufferin has declared he was unable to accept the Turkish proposals for a military convention, even in their new form. Said Pasha and Assym Pasha are understood to be strongly in favor of an understanding with England.

LONDON, Aug. 19.—The *Pall Mall Gazette* says: Mr. Grey's sentence looks worse to-day than yesterday. It is now a question whether Mr. Grey as a journalist has not been instrumental in unearthing a grave scandal. We do not believe there is a single English journalist who would not have called attention to such a report as that spoken of by Mr. Grey. That Mr. Gray should be in jail as a scoundrel of the first magnitude is an outrage.

A dispatch to the *Pall Mall Gazette* from Dublin states that the speeches made at the banquet given to Parnell after the conviction of Grey have been submitted to the law officers for decision as to whether any action should be taken upon them. O'Gorman Mahon, member of parliament, on that occasion compared Judge Lawson to Jeffreys, and pointed out that the former narrowly escaped being torn to pieces by an indignant people. Mr. Healey, member of parliament for Wexford, denounced Judge Lawson with similar violence.

DUBLIN, Aug. 19.—George Otto Trevelyan, chief secretary for Ireland, speaking at Londonderry to-day, said the Irish government were beginning to feel a sense of hope, almost of confidence, to which they were strangers at the dark hour when they commenced their labors.

TRIESTE, Aug. 19.—The bombs found in the box seized here yesterday are identical in construction with those thrown into the ranks of the society of veterans on the 2d inst. while they were marching through the Corso to salute the emperor's brother, the Arch Duke Charles Lewis. An inquiry was held yesterday, when the commission charged with the work discovered an elaborate plot located in Italy, while its employes are engaged in constructing bombs in Trieste. A large number of the latter, dwelling in the lowest quarter of the town, have been arrested for throwing. Also some of the persons who participated in throwing bombs on the 2d inst. Among the documents found in the box were proclamations which, although bearing a Trieste imprint, were printed in Venice. Several Italian subjects have been expelled from this city.

VIENNA, Aug. 19.—A dispatch from Trieste says the Lloyd steamer which arrived today from Venice had on board a box which was opened by the police and found to contain bombs and petards; also documents proving that the torchlight procession last night in celebration of the emperor's birthday was intended to be made the occasion for using them.

PARIS, Aug. 20.—In consequence of disclosures made by one of the rioters arrested at Monceuls mine the police have seized a number of documents which proved an expose of a secret society called the Black Band. The chief of the society escaped but his deputy was arrested.

PARIS, Aug. 20.—It is announced from Andorra that the official appointed by the bishop of Andorra in his capacity of joint protector of the republic has been encouraging a Carlist band which have threatened to invade the republic. Authorities who are appointed by France are preparing to resist the invasion.

VIENNA, Aug. 19.—The situation in Roumania becomes very disquieting. Russians have apparently commenced their old outrages. Russian officers are frequently found on the lower Danube studying the passages of the river and noting the Roumanian garrisons. Moldavia and Dobrudscha are the chief headquarters of the Russian intrigue.

ROME, Aug. 20.—A letter from the pope to the Irish bishops, dated August 1st, is published here. His holiness expresses his profound regret that tranquility has not been restored in Ireland and that murders continue to be committed. He says the Irish people by following the advice of their prelates may hope for alleviating the ills from which they suffer. A just cause may be upheld by just means. Secret societies must be shunned, and, in the words of Saint Augustine, the first characteristic trait of liberty is non-commission of crimes. Priests ought to be active supporters of public order during the present trouble. The letter concludes by expressing the hope that the English government will do justice to all classes of Irish people, remembering the pacification of Ireland constitutes an element of tranquility in the whole empire.

LONDON, Aug. 19.—A dispatch from Alexandria states Generals Willis and Graham and the Duke of Connaught have gone to Aboukir. Of the whole fleet of ironclads the Invincible and Inconstant alone remain.

The 49th, 75th and 79th regiments at Ramleh will probably support the movement at Aboukir by an attack on the left flank of the enemy.

General Wolseley and aides accompanied the transports in the dispatch boat Salamis. Admiral Seymour will hoist his flag on board the ironclad Alexandria.

Another Egyptian policeman was recognized to-day as one of the assassins of the 11th of June.

Advices from Cairo report all quiet there up to the 16th inst. It appears even the general commanding the brigades was not informed of the intended movements. It is said that Major-General Sir Edward Hamley had been ordered to support the bombardment of the Aboukir forts by a flank attack from Ramleh, and was unaware of the real plans until he opened this morning the sealed orders he received. A reconnoissance by the armored train made this afternoon drew fire from the Egyptian fifteen centimetre Krupp gun, but the aim was bad. The British 40-pounders on the train replied and silenced the enemy. The fortifications at Ramleh are being strengthened by Arab laborers.

The *Post* understands the porte has countermanded the military preparations for the expedition to Egypt, and declines to accept the British conditions for military conventions.

PORTSMOUTH, Aug. 19.—The troop ship Malabar, with 26 officers and 1088 men, drafted from various regiments in England, sailed to-day amid great enthusiasm. The Queen will inspect the ship from her yacht as she passes through the channel.

ALEXANDRIA, Aug. 19—6 p. m.—Fighting commenced this afternoon on Mahmoudieh canal. The British are using the heavy guns brought into the neighborhood of Malhalla junction yesterday. Fighting still continues.

ALEXANDRIA, Aug. 20.—In the skirmish yesterday the Egyptians fired shrapnel shell ineffectually at the outposts of the 46th infantry, numbering 300, and occupying temporary intrenchments. The Egyptian infantry then advanced to within about 800 yards. They were coming from Kafr el Dwar. Some cavalry also appeared from the direction of Aboukir. The Egyptian lines were most irregular, and some of the men apparently unarmed. The cavalry were also confused from the restlessness of their horses. About 5 o'clock in the evening the British ironclad train sent out a car with a forty-pounder detached and sent about forty yards in advance of the engine, and fired two shells upon the Egyptians, who endeavored to execute a flanking movement on the forty-pounder. After this movement was frustrated it was fired towards Kafr el Dwar. The Egyptians replied with a shell, which burst between the train and engine. The train then retired, firing during its retreat. Another shell exploded between the rails, and the train finally retired without damage. British infantry meanwhile fired from their intrenchments, causing great loss to the Egyptian cavalry. The firing ceased at sunset.

LONDON, Aug. 20.—A dispatch from Alexandria says it is rumored that Arabi Pasha's intrenchments will be attacked Monday morning at 6 o'clock.

LONDON, Aug. 19.—A dispatch from Port Said at 7 a. m. says sailors are landing and disarming natives, who offer no resistance. Several transports and men-of-war are anchored here, and a fleet numbering seven coming in. The gunboats Dee and Don have entered the canal. Rear-Admiral Hewitt has stopped canal traffic.

ALEXANDRIA, Aug. 19.—The Aboukir division will consist of about 6000 men, and in case of necessity will be reinforced by 2000 men from the naval brigade. Major General Sir Edward Hamley's division is 7000 strong. The weather is oppressively warm. The marines have gone on board the transports. The men of the Inconstant took two 6½-ton guns, Arabi's own weapons, from Hadah to Ramleh to-day.

VIENNA, Aug. 19.—A dispatch from Trieste says that the Lloyd steamer that arrived there today from Venice had on board a box which was found to contain bombs and petards when opened by the police; also documents showing that the torchlight procession last night in honor of the emperor's birthday was intended to be made the occasion for using them.

ALEXANDRIA, Aug. 18.—The British ironclads and foreign men of-war here fired salutes today in honor of the birthday of the Emperor of Austria.

The sailors of the Inconstant mounted a seven-inch gun at Ramleh to-day. They resume operations to complete the battery of four guns.

LONDON, Aug. 19.—M. J. L. Finnegan, member of parliament for Ennis, has resigned his seat, owing to the state of his health.

Six hundred men of the army reserve have been ordered to Ireland to replace the troops sent to Egypt.

Mr. Dillon's speech at the meeting at the Mansion House yesterday, in which he referred with considerable feeling to the action of certain landlords, whom he named, is under consideration by the law officers.

Mr. Joyce and family of three have been murdered at their home in County Galway by a party of men. He was believed to be an informer.

MALTA, Aug. 18.—The German corvette Nymph and the British transport Californian, the latter with a company of engineers, have arrived.

DUBLIN, Aug. 19.—Subscriptions are flowing in towards a fund for the payment of the fine imposed on Grey. The list is headed by the names of Catholic bishops.

The metropolitan police have petitioned the committee which considered the claims of the Irish constabulary, also to inquire into their grievances.

California.

SAN FRANCISCO, Aug. 20.—Hon. Frank Pixley delivered to-night an able lecture at Children's hall Silver Star house, on the subject: "Politics make cowards of us all." Over 700 persons were present many having to go away not being able to obtain seats. On questions of Sunday law and temperance the speaker took very bold and advanced grounds. On the Sunday law he took the position that the Republican party should espouse the cause of sanctity of the Sabbath as a moral, physical and intellectual necessity; that as a preservation against the encroachments of capital it was a living vital necessity. Speaking of the temperance question, he said the republican party as a progressive party had met the question of slavery and settled it; that the republican party on the basis of its national importance should accept this temperance question as a living issue, and that the republican convention at Sacramento would be required to accept the challenge thrown down by the democratic convention at San Jose. His position favoring the Sunday law and temperance was very clearly, boldly and forcibly defined.

Africa.

CAPETOWN, Aug. 21.—Smallpox is spreading here in an alarming manner. The mortality is great.

There is an old beau at Austin, Colonel Prettiman, about seventy-five years old, but he is as spry as anybody, and is firmly persuaded he is the handsomest man in the city. He was present at a little social gathering a few nights ago, when the lecture of Oscar Wilde at San Antonio came up for discussion. It was also stated that he was a very handsome man. "Oscar is not only handsome, but they say he carries a pistol to shoot the first man he sees whom he thinks is handsomer than he is himself," remarked one of the party. "Is that so?" gasped Colonel Prettiman, turning pale; "and here I have gone and bought a ticket to go over to San Antonio to hear him lecture."

Fishermen who live along the Mediterranean shores say the digging of the Panama and Corinth canals is likely to influence the future character of the finny tribes in the waters which these canals will join. They point to their own experience since the Suez undertaking was completed. Not a single shark was formerly known in the Mediterranean, a fact which made the fish supply of that sea inexhaustible, but sharks now migrate into it freely from the Red Sea and Indian Ocean, and make sad havoc of fish that have a marketable value.

REMOVAL OF SNAGS,

FRASER RIVER.

SEALED TENDERS, SUPERSCRIBED AS ABOVE and addressed to the undersigned, are invited to be delivered at this office by or before 4 p. m. of FRIDAY, the 15th September next, for the removal of Snags from the Channel of Fraser River, between Cheam and New Westminster. About 30 or 40 Snags will probably have to be removed.

The Snags to be removed will be pointed out to the Contractor by the Dominion Government Agent, or other agent of the Public Works Department, when the work is undertaken; and those Snags will have to be removed first which in the opinion of the said Agent most impede and endanger navigation.

The Snags in every case, including the portions thereof imbedded in the mud, are to be wholly removed, and either destroyed or transported to and made fast in such a position clear of the channel, as shall be considered satisfactory by the said Agent.

The whole work must be completed by the 15th December next.

The Tenderer is to state the rate per Snag for the removal of the whole number of Snags that may be required by the said Agent to be removed as above specified.

Payment will be made in three equal instalments proportionate to the progress of the work in the judgment of the said Agent.

Each Tender must be accompanied by an accepted Bank Cheque or Certificate of Deposit of the sum of $500, made payable to the order of the Dominion Government Agent, which will be forfeited if the Tenderer declines to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the Tender be not accepted the Cheque or Certificate will be returned.

The lowest or any tender will not necessarily be accepted.
